Class colors: Blue

Our will shall shape our future
Whether we fail or succeed shall be
No man's doing but our own,
We are the force;
We can clear any obstacle before us,
Or, we can be lost in the maze,
Our choice; our responsibility;
Win or lose, only we hold the
Key to our destiny.

"We May Never Pass This Way Again"

Life, so they say, is for the fools and they let it slip away. Love like the autumn sun should be dying but its only just begun. Like the twilight in the road up ahead they don't see just where we're going all the creatures in the universe whisper in our ears all the years will come and go and take us up always up we may never pass this way again

Dreams so they say is but a game and they let them drift away. Peace like the silent dove should be flying but it's only just begun. Like Columbus in the olden days we must gather all our courage sail our ships out on the open sea cast away our fears and all the years will come and go and take us up always up We may never pass this way again.
